

Brief company portrait

GiraCom e. K. – digital projects

GiraCom is an owner-managed agency for digital projects.

We develop creative marketing and communication strategies for medium-sized businesses and internationally active companies.

We digitise business processes and support this transformation process with customised IT solutions.

As a full-service agency, we increase the presence, reach and turnover of our clients with a holistic approach.

Portfolio

Marketing and communication

"Content is King!" A short sentence quickly gets to the point: Take care of your core business, in order to ensure the high quality of your products and services. We take care of the creative presentation so that the world can discover your great offer.

Development and technology

What good is the best online strategy without the best possible implementation? That's because creative strategists and clever developers work hand in hand with us, meaning that both coordination and quality losses are avoided. Our digital applications have been achieving top performance. Since 1998.

Service and Support

We offer reliable support for all business areas, consisting of targeted, coordinated services. We support and advise our clients on the secure and long-term operation of their projects.

About us

GiraCom and the giraffe – what do the two have to do with each other? A question that is asked time and again. For us, the giraffe embodies foresight and overview. Qualities with which we keep an eye on current trends and technologies, in order to be able to use them within our projects. The giraffe has been part of our logo since 1998, our founding year.

We offer a full service in the areas of marketing, communication, development and technology. Our commitment ranges from planning and implementation to long-term support for digital, as well as analogue projects.

// GiraCom e. K. / Kurzportrait

As digital has been at the core of our corporate DNA for over 20 years, we have developed a very special strength in this area. We work alongside companies in their digital transformation and provide a wide range of services to ensure the secure and sustainable operation of the jointly developed projects and solutions.

Our client base ranges from medium-sized businesses to educational institutions and internationally active companies. Many have found their way to us because they are convinced of our committed, structured and client-oriented approach.

You too can benefit from our creativity and experience when implementing your next project!

Team

Teamwork is very important to us. A well-coordinated and experienced team in the areas of consulting, planning, communication and software development ensures the best possible results. On a project basis, we draw on external design, multimedia, video and search engine know-how, in order to be able to implement even very special requirements perfectly.

With creative ideas, commitment and reliability, we contribute to the success of your projects and ensure optimal results through thorough planning and agile working methods.

Curious? If we have piqued your interest, we cordially invite you to get to know us so that you can entrust us with your next project.
